Twinkle Stars

The children really enjoyed "ice fishing" today! We put little toy fish in icy water and used magnetic fishing poles and practiced taking turns. They got really excited to see what color fish they caught! Outside time was extended today - so nice to be out in the fresh air to work our large motor skills!

For math activities, the children sorted rainbow (goldfish) crackers on corresponding red, orange, green, and yellow construction paper squares. After counting...they ate them all! We worked with the class on number recognition and matching by using numbered fish during another ice fishing game. They also used the fishing puzzle during our table activity time.

Today was "pick your favorites" day for story time. The kids brought up their favorites and sat quietly through several books - completely enthralled during each one!

See you tomorrow!

Ms. Kathy and Ms. Jodie
